

Hi Scott & Dan,

I want to thank you and your guys for the such a nice job “we” did on the stack project. Both the OEM start-up tech & the RATA certification Tech said they’ve never seen such a smooth and successful conversion! MA played in big role in this success. Please let Tadd & Andy know, ok? I’d like to personally call & thank Ron LaChance, if it’s ok w/ you. Have you got his home phone #? He was the “Lead Sled Dog”.

Happy Holidays to you and your families!!

Steve
